From Teacher to Preacher Dr. Jean Norbert Augustin, This book relates the main events in the life of the author who was born and grew up in a modest Mauritian family. At 19, he joined the teaching profession and retired at 71 after a long and successful career. In 1982, he became a Christian and started serving the Body of Christ at various levels. Suffering from arthritis, he now continues in the ministry and spends most of his time doing the next thing he likes best - writing.

Dans les coulisses de la science - Techniciens, petites mains et autres travailleurs invisibles Françoise Waquet,2022-03-17 L'histoire de la science met en pleine lumière une élite de chercheurs, des pionniers, le plus souvent des hommes ; une élite encore magnifiée par le culte de l'excellence, la starification médiatique et l'hypervisibilité contemporaine. La société du savoir apparaît ainsi comme une société restreinte, une aristocratie sans peuple. Reste dans l'ombre une population qui pourtant participe à l'œuvre scientifique. C'est à ces invisibles de la recherche que cet ouvrage est consacré. Fondé sur une documentation exceptionnelle réunie au long d'un vaste parcours dans le monde du savoir, du XIXe siècle à aujourd'hui, il donne à voir la présence nombreuse dans les institutions de la science d'ingénieurs et de techniciens, de secrétaires et de personnels de service, de précaires et de bénévoles ; il révèle aussi, derrière l'œuvre, des filles et des épouses assistant un père, un mari. Observer l'activité de ces travailleurs en second montre qu'au-delà des tâches de service, d'exécution, de routine qui seraient le lot des petites mains de la recherche, se déploient des savoirs et des savoir-faire démentant l'idée d'un travail sans pensée. Écouter cette population laborieuse, c'est saisir le vécu de travailleurs subordonnés, entendre la demande de considération de l'individu laborans pour son travail et sa personne, autrement dit son désir de reconnaissance, déjà au sens le plus élémentaire : être vu, exister. Une histoire de la science revisitée.

Female Heroism in the Works of Corneille and Racine Dana Lungu,2023-07-24 This study breaks with traditional readings in terms of tragic model and tragic hero in the works of Racine and Corneille. It departs from the critical tradition of examining the tragic hero as an isolated figure, defined by autonomy; it approaches the behaviour of Médée, Clytemnestre, and Phèdre from a relational perspective. It argues that these female characters belong to the tragic hero category, hold valid and valuable ethical positions and deserve to be treated as equal to their male counterparts. It also redefines the way we look at the tragic dynamic. The characters are no longer antagonists but inadvertent collaborators working towards the

tragic outcome in order to satisfy desires and beliefs about themselves and the world that are deeply rooted in their psyche. This book shows that alternative interpretations of the behaviour of Médée, Clytemnestre and Phèdre can be obtained and must be obtained by applying modern methodologies in order to challenge the biased readings from the past and to see these characters in a new light.

Fair Trade Organizations and Social Enterprise Benjamin Huybrechts,2012-05-04 For several decades, social enterprises have been pioneers in the conception and implementation of a pathbreaking social innovation: Fair Trade (FT). Fair Trade Social Enterprises have created a movement which has challenged mainstream trading practices and offered development opportunities for disadvantaged producer groups in the South. Starting from a niche market aimed at convinced customers, FT has expanded and entered mainstream retailing outlets, growing in visibility and market share, while simultaneously experiencing diversification of its organization models. While pioneer Fair Trade Social Enterprises in the early years were largely nonprofit organizations relying on voluntary work, they have become increasingly diversified in terms of legal forms, governance models and organizational practices. These diversified models seem to reflect the hybrid nature of FT itself, through different ways of combining a commercial activity (trading of FT products), a social mission (support to producers), and an explicit or implicit political message (often expressed through education and advocacy). Based on the study of Fair Trade Social Enterprises across Europe, this book builds a typology of organization models for FT. Author Benjamin Huybrechts further examines how the different organization models combine the economic, social, and political dimensions of FT, and how they manage the possible tensions between these dimensions. Fair Trade Organizations and Social Enterprise proposes a range of theoretical approaches to interpret the diversity of Fair Trade Social Enterprises and offers concrete avenues for managing social enterprises and hybrid organizations in general.

Ego-histories of France and the Second World War Manuel Bragança,Fransiska Louwagie,2018-03-21 This volume presents the intellectual autobiographies of fourteen leading scholars in the fields of history, literature, film and cultural studies who have dedicated a considerable part of their career to researching the history and memories of France during the Second World War. Based in five different countries, Margaret Attack, Marc Dambre, Laurent Douzou, Hilary Footitt, Robert Gildea, Richard J. Golsan, Bertram M. Gordon, Christopher Lloyd, Colin Nettelbeck, Denis Peschanski, Renée Poznanski, Henry Rousso, Peter Tame, and Susan Rubin Suleiman have played a crucial role in shaping and reshaping what has become a thought-provoking field of research. This volume, which also includes an interview with historian Robert O. Paxton, clarifies the rationales and driving forces behind their work and thus behind our current understanding of one of the darkest and most vividly remembered pages of history in contemporary France.

Racism and the Tory Party Mike Cole,2022-12-30 Racism is an endemic feature of the Tory Party. Tracing the history

of that racism, *Racism and the Tory Party* investigates the changing forms of racism in the party from the days of Empire, including the championing of imperialism at the turn of the 20th century and the ramping up of antisemitism, the imperial and 'racial' politics of Winston Churchill, the rise of Enoch Powell and Powellism, to the Margaret Thatcher years, the birth of 'racecraft' and her policies in Northern Ireland, and the hostile environment and its consolidation and expansion under Theresa May and Boris Johnson's premierships. Throughout the book, all forms of racism are addressed including the various forms of colour-coded and as well as non-colour-coded racism as they are put in their historical and economic contexts. This book should be of relevance to all interested in British politics and British history, as well as undergraduate and postgraduate students studying the sociology and politics of racism, as well as for students of the history of the development of British racism and of imperialism and its aftermath.

The African Film Industry UNESCO, 2021-10-01 The production and distribution of film and audiovisual works is one of the most dynamic growth sectors in the world. Thanks to digital technologies, production has been growing rapidly in Africa in recent years. For the first time, a complete mapping of the film and audiovisual industry in 54 States of the African continent is available, including quantitative and qualitative data and an analysis of their strengths and weaknesses at the continental and regional levels. The report proposes strategic recommendations for the development of the film and audiovisual sectors in Africa and invites policymakers, professional organizations, firms, filmmakers and artists to implement them in a concerted manner.

Innovation Economics, Engineering and Management Handbook 2 Dimitri Uzunidis, Fedoua Kasmi, Laurent Adatto, 2021-07-21 Innovation, in economic activity, in managerial concepts and in engineering design, results from creative activities, entrepreneurial strategies and the business climate. Innovation leads to technological, organizational and commercial changes, due to the relationships between enterprises, public institutions and civil society organizations. These innovation networks create new knowledge and contribute to the dissemination of new socio-economic and technological models, through new production and marketing methods. *Innovation Economics, Engineering and Management Handbook 2* is the second of the two volumes that comprise this book. The main objectives across both volumes are to study the innovation processes in today's information and knowledge society; to analyze how links between research and business have intensified; and to discuss the methods by which innovation emerges and is managed by firms, not only from a local perspective but also a global one. The studies presented in these two volumes contribute toward an understanding of the systemic nature of innovations and enable reflection on their potential applications, in order to think about the meaning of growth and prosperity

Constitutional Courts, Media and Public Opinion Angioletta Sperti, 2023-11-16 This book explores how constitutional courts have transformed communication and overcome their reluctance to engage in direct dialogue with citizens. How has

the information revolution affected the relationship of constitutional courts with the public and the media? The book looks in detail at the communication strategies of the US Supreme Court, the Supreme Court of Canada, and in Europe the German Federal Constitutional Tribunal, the French Conseil Constitutionnel and the Italian Constitutional Court, arguing that when it comes to the relationship between courts and the media, different jurisdictions share many similarities. It focuses on the consequences of the communication revolution of courts both in terms of their relationship with public opinion and of the legitimacy of judicial review of legislation. Some constitutional courts have attracted criticism by engaging in proactive communication and, therefore, arguably yielding to the temptation of public support. The book argues that objections to the developing institutional communications employed by courts come from a preconceived notion of public opinion. It considers the burden the communication revolution has placed on constitutional courts to achieve a balance between transparency and seclusion, proximity and distance from public opinion. It puts forward important arguments for how this balance can be achieved. The book will interest scholars in constitutional law and public comparative law, sociologists, historians, political scientists, and scholars of media law and communication studies.

Internet, donne-moi ce que je veux ! Patricia Gallot-Lavallée, 2007 Vous voulez un site internet efficace ? Donnez à vos internautes ce qu'ils veulent, vous aurez ce que vous voulez. Pour remplir cet objectif, 4 étapes : mettre les internautes sur écoute, optimiser votre site pour le référencement, construire un site simple et facile à utiliser, rendre vos pages accessibles à tous quelque soit leur équipement (téléphone mobile...) ou handicap. 60 exemples de navigations internet afin d'aider les responsables de site web à choisir les modes de navigation à mettre à disposition de leurs internautes, de fournir une source d'idées de fonctionnalités et d'interfaces web pertinentes, de proposer des pistes d'amélioration des systèmes de navigation déjà en place sur le site, de regrouper les recommandations d'ergonomie, de référencement et d'accessibilité sur une même page. Ce livre s'adresse aux personnes amenées à concevoir un site web : chefs de projet web, responsables de site internet, responsables marketing et communication, architectes de l'information, ergonomes chargés de concevoir des interfaces web, personnes chargées de la direction artistique / designers / graphistes web, consultant(e)s et chargé(e)s de clientèle en agence, développeurs web, étudiant(e)s...

Transcultural Turbulences Christiane Brosius, Roland Wenzlhuemer, 2011-09-25 Today, hardly anything moves as fast across the globe as images and media. This fact opens new avenues to explore social and cultural change, but also poses new theoretical challenges of how to grasp and better understand these changes and flows. Moreover, such movements across geophysical and cultural borders have a historical depth that enables us to explore globalisation and localisation in new ways. Transculturality is still a relatively new field of research in the Humanities through which we sharpen our competence and 'literacy' to come to terms with the complexity of globalised cultures. This volume ventures into new domains of research on the transculturality of images and addresses the need to develop new or modify established often ethno- and Eurocentric

interpretations of what happens when images travel. It does so by bringing together cutting-edge research from fields such as art history, cultural anthropology, colonial history, Islamic studies, religious studies and literary criticism.

The Places Where Community Is Practiced Anna Steigemann, 2019-02-25 In this open access publication, the social cohesion of urban neighborhoods and their residents is examined, which is often viewed as vulnerable since increased mobility, individualization, wider socio-economic and demographic changes have fundamentally altered the basis for everyday social interaction in urban neighborhoods. Anna Steigemann gives scholarly attention to the concrete places where neighborly interactions still take place and to how these interactions affect local community building. She illuminates and explores the ordinary everyday interactions and social practices in and around shops and gastronomic facilities on a shopping street in Berlin-Neukölln, revealing how these businesses are important places where community is practiced, but also why they are increasingly threatened by commercial and residential gentrification.

Streaming Music, Streaming Capital Eric Drott, 2023-12-29 In *Streaming Music, Streaming Capital*, Eric Drott analyzes the political economy of online music streaming platforms. Attentive to the way streaming has reordered the production, circulation, and consumption of music, Drott examines key features of this new musical economy, including the roles played by data collection, playlisting, new methods of copyright enforcement, and the calculation of listening metrics. Yet because streaming underscores how uneasily music sits within existing regimes of private property, its rise calls for a broader reconsideration of music's complex and contradictory relation to capitalism. Drott's analysis is not simply a matter of how music is formatted in line with dominant measures of economic value; equally important is how music eludes such measures, a situation that threatens to reduce music to a cheap, abundant resource. By interrogating the tensions between streaming's benefits and pitfalls, Drott sheds light on music's situation within digital capitalism, from growing concentrations of monopoly power and music's use in corporate surveillance to issues of musical value, labor, and artist pay.

International Responses to Issues of Credit and Over-indebtedness in the Wake of Crisis Therese Wilson, 2016-04-22 This book explores the political, economic and regulatory context in which credit regulation is taking place following the global financial crisis. It suggests that current neoliberal economic policies favour multi-national corporations rather than consumers and examines regulatory responses to the internationalization of consumer finance protection. Detailing how EU consumers have been affected by national economic conditions, the book also analyses the lending regimes of Europe, Australia, the US and South Africa and offers suggestions for responsible lending to avoid over-indebtedness and corrupt mortgage-lending. Finally, new approaches and directions for consumer credit regulations are outlined, such as protection for small businesses, protection against risky credit products, reorganization of mortgage securitization and the possibility of a partnership model to address financial exclusion. The book includes contributions from leading names in the field of consumer law and will be invaluable to those interested in banking, business and commercial

law.

Die Ermüdung der Demokratie Wolfgang Geiger, 2017-09-28 Warum zogen 2014 ein Drittel EU-Gegner und -Kritiker ins Europaparlament ein? Warum waren alle vom Brexit überrascht? Warum wurde die Bedrohung der europäischen Demokratie durch den Rechtspopulismus erst wahrgenommen, als sich der Einzug von Marine Le Pen in die Stichwahl zur französischen Präsidentschaft abzeichnete? Wie reagieren die etablierten demokratischen Parteien auf diese Entwicklung? Und warum konnte ein Emmanuel Macron fast über Nacht die politische Landschaft Frankreichs transformieren? Eine Tour d'horizon durch verschiedene europäische Länder vermittelt einen Eindruck von der Breite und Tiefe der Herausforderung der Demokratie. Der Populismus reagiert auf Entwicklungen, die als Bedrohungen von außen wahrgenommen werden: Globalisierung, Europäisierung, Verlust der nationalen Souveränität, Migration und Terrorismus – oder als dysfunktionale Entwicklungen im Inneren: bürgerferne Bürokratie, abgehobene politische Entscheidungen, Korruption, Machtmissbrauch. Reale Probleme mischen sich in der Vorstellung mit fantasierten Szenarien und Verschwörungstheorien. Die politische Krise der EU seit der Finanzkrise und der nach wie vor ungelösten Schuldenproblematik, verstärkt durch neue Herausforderungen angesichts der Flüchtlinge und des islamistischen Terrorismus, fördert vor allem rechtspopulistische und nationalistische Tendenzen. Eine Ermüdung der Demokratie scheint sich schon darin zu zeigen, dass ihre Errungenschaften so selbstverständlich erscheinen, als müssten sie sich nicht ständig aufs Neue bewähren. Im Zentrum der Untersuchung stehen Frankreich und Deutschland, ergänzt durch Analysen der rechtsextremen und populistischen Ideologien, von Demokratie und Demagogie als dialektischem Paar seit der Antike, und nicht zuletzt geht es um die Frage: Was ist Europa? Auch als E-Book: www.humanities-online.de
