**Inside the White Cube** Brian O'Doherty, 1999 These essays explicitly confront a particular crisis in postwar art, seeking to examine the assumptions on which the modern commercial and museum gallery was based.

*The Arcades Project* Walter Benjamin, 1999 Focusing on the arcades of 19th-century Paris--glass-roofed rows of shops that were early centers of consumerism--Benjamin presents a montage of quotations from, and reflections on, hundreds of published sources. 46 illustrations.

**French Rococo Ébénisterie in the J. Paul Getty Museum** Gillian Wilson, Arlen Heginbotham, 2021-03-30 The first comprehensive catalogue of the Getty Museum's significant collection of French Rococo ébénisterie furniture. This catalogue focuses on French ébénisterie furniture in the Rococo style dating from 1735 to 1760. These splendid objects directly reflect the tastes of the Museum's founder, J. Paul Getty, who started collecting in this area in 1938 and continued until his death in 1976. The Museum's collection is particularly rich in examples created by the most talented cabinet masters then active in Paris, including Bernard van Risenburgh II (after 1696--ca. 1766), Jacques Dubois (1694--1763), and Jean-François Oeben (1721--1763). Working for members of the French royal family and aristocracy, these craftsmen excelled at producing veneered and marquetryed pieces of furniture (tables, cabinets, and chests of drawers) fashionable for their lavish surfaces, refined gilt-bronze mounts, and elaborate design. These objects were renowned throughout Europe at a time when Paris was considered the capital of good taste. The entry on each work comprises both a curatorial section, with description and commentary, and a conservation report, with construction diagrams. An introduction by Anne-Lise Desmas traces the collection's acquisition history, and two technical essays by Arlen Heginbotham present methodologies and findings on the analysis of gilt-bronze mounts and lacquer. The free online edition of this open-access publication is available at [www.getty.edu/publications/rococo/](http://www.getty.edu/publications/rococo/) and includes zoomable, high-resolution photography. Also available are free PDF, EPUB, and Kindle/MOBI downloads of the book, and JPG downloads of the main catalogue images.

**Art in History/History in Art** David Freedberg, Jan de Vries, 1996-07-11 Historians and art historians provide a critique of existing methodologies and an interdisciplinary inquiry into seventeenth-century Dutch art and culture.

**The Places Where Community Is Practiced** Anna Steigemann, 2019-02-25 In this open access publication, the social

cohesion of urban neighborhoods and their residents is examined, which is often viewed as vulnerable since increased mobility, individualization, wider socio-economic and demographic changes have fundamentally altered the basis for everyday social interaction in urban neighborhoods. Anna Steigemann gives scholarly attention to the concrete places where neighborly interactions still take place and to how these interactions affect local community building. She illuminates and explores the ordinary everyday interactions and social practices in and around shops and gastronomic facilities on a shopping street in Berlin-Neukölln, revealing how these businesses are important places where community is practiced, but also why they are increasingly threatened by commercial and residential gentrification.

*A New American Picture* David Company,2012 Consists of images captured by Google Street View.

*Ethics and Sport in Europe* Dominique Bodin,Gaëlle Sempé,2011-01-01 Defending ethics in sport is vital in order to combat the problems of corruption, violence, drugs, extremism and other forms of discrimination it is currently facing. Sport reflects nothing more and nothing less than the societies in which it takes place. However, if sport is to continue to bring benefits for individuals and societies, it cannot afford to neglect its ethical values or ignore these scourges. The major role of the Council of Europe and the Enlarged Partial Agreement on Sport (EPAS) in addressing the new challenges to sports ethics was confirmed by the 11th Council of Europe Conference of Ministers responsible for Sport, held in Athens on 11 and 12 December 2008. A political impetus was given on 16 June 2010 by the Committee of Ministers, with the adoption of an updated version of the Code of Sports Ethics (Recommendation CM/Rec(2010)9), emphasising the requisite co-ordination between governments and sports organisations. The EPAS prepared the ministerial conference and stepped up its work in an international conference organised with the University of Rennes, which was attended by political leaders, athletes, researchers and officials from the voluntary sector. The key experiences described in the conference and the thoughts that it prompted are described in this publication. All the writers share the concern that the end result should be practical action - particularly in terms of the setting of standards - that falls within the remit of the EPAS and promotes the Council of Europe's core values.

**Illuminations** Walter Benjamin,2015-11-05 *Illuminations* contains the most celebrated work of Walter Benjamin, one of the most original and influential thinkers of the 20th Century: 'The Work of Art in the Age of Mechanical Reproduction', 'The Task of the Translator' and 'Theses on the Philosophy of History', as well as essays on Kafka, storytelling, Baudelaire, Brecht's epic theatre, Proust and an anatomy of his own obsession, book collecting. This now legendary volume offers the best possible access to Benjamin's singular and significant achievement, while Hannah Arendt's introduction reveals how his life and work are a prism to his times.

*Fair Trade Without the Froth* Sushil Mohan,2010 *The Theory of Fair Trade; Is Fair Trade Free Market?; Benefits & Detriments of Fair Trade; Alternatives to Fair Trade; Fair Trade as a Long-Term Development; Conclusion.*

*Toward a Ludic Architecture* Steffen P. Walz, 2010 – ‘Toward a Ludic Architecture’ is a pioneering publication, architecturally framing play and games as human practices in and of space. Filling the gap in literature, Steffen P. Walz considers game design theory and practice alongside architectural theory and practice, asking: how are play and games architected? What kind of architecture do they produce and in what way does architecture program play and games? What kind of architecture could be produced by playing and gameplaying?

**Children’s Literature in Translation** Jan Van Coillie, Jack McMartin, 2020-10-30 For many of us, our earliest and most meaningful experiences with literature occur through the medium of a translated children’s book. This volume focuses on the complex interplay that happens between text and context when works of children’s literature are translated: what contexts of production and reception account for how translated children’s books come to be made and read as they are? How are translated children’s books adapted to suit the context of a new culture? Spanning the disciplines of Children’s Literature Studies and Translation Studies, this book brings together established and emerging voices to provide an overview of the analytical, empirical and geographic richness of current research in this field and to identify and reflect on common insights, analytical perspectives and trajectories for future interdisciplinary research. This volume will appeal to an interdisciplinary audience of scholars and students in Translation Studies and Children’s Literature Studies and related disciplines. It has a broad geographic and cultural scope, with contributions dealing with translated children’s literature in the United Kingdom, the United States, Ireland, Spain, France, Brazil, Poland, Slovenia, Hungary, China, the former Yugoslavia, Sweden, Germany, and Belgium.

**Stocks for All: People’s Capitalism in the Twenty-First Century** Petri Mäntysaari, 2021-12-31 Public stock markets are too small. This book is an effort to rescue public stock markets in the EU and the US. There should be more companies with publicly-traded shares and more direct share ownership. Anchored in a broad historical study of the regulation of stock markets and companies in Europe and the US, the book proposes ways to create a new regulatory regime designed to help firms and facilitate people’s capitalism. Through its comparative and historical study of regulation and legal practices, the book helps to understand the evolution of public stock markets from the nineteenth century to the present day. The book identifies design principles that reflect prior regulation. While continental European company law has produced many enduring design principles, the recent regulation of stock markets in the EU and the US has failed to serve the needs of both firms and retail investors. The book therefore proposes a new set of design principles to serve contemporary societal needs.

*On Curiosity* Franck Cochoy, 2016-07-25 What draws us towards a shop window display? What drives us to grab a special offer, to enter the privileged circle of premium newspaper subscribers, to peruse the pages of an enticing magazine? Without doubt, it is curiosity - that essential force of everyday action which invites us to break from our habits and to become

transported beyond our very selves. Curiosity (whether healthy or unhealthy) is one of the favourite tricks of market seduction. Capturing a public - attracting the attention of a reader, seducing a customer, meeting the expectations of a user, persuading a voter ... - often requires the construction of a set of technical devices that can play upon people's inner motivations. Cochoy invites us to take a sociological trip into these cabinets of curiosity, accompanied throughout by Bluebeard, a fairy tale that is both a model of the genre and a pure curiosity machine. At once a work of history and economic anthropology, the book meticulously analyses the devices designed by markets to arouse, excite, and sustain curiosity: a window display, practices of 'teasing', packaging, bus shelters, mobile internet technologies, to name but a few. In the Bettencourt and Strauss-Kahn affairs and the Wikileaks controversy, Cochoy also uncovers the work of investigative journalism and its attention-grabbing 'scoops', revealing the secrets of the revealers of secrets. Available in English for the first time, this major work will arouse readers' curiosity over the course of its unusual and colourful journey. By the end, now better informed and more cautious, they will be able to identify the traps of which they are the target. So long as curiosity is kept at bay, at least!

**Shakespeare Seen** Stuart Sillars, 2018-12-20 Shows how illustrated editions and paintings of the plays were originally produced and read as critical, social and political statements.

*The Oxford Handbook of Early Modern European History, 1350-1750* Hamish M. Scott, 2015 This Handbook re-examines the concept of early modern history in a European and global context. The term 'early modern' has been familiar, especially in Anglophone scholarship, for four decades and is securely established in teaching, research, and scholarly publishing. More recently, however, the unity implied in the notion has fragmented, while the usefulness and even the validity of the term, and the historical periodisation which it incorporates, have been questioned. The Oxford Handbook of Early Modern European History, 1350-1750 provides an account of the development of the subject during the past half-century, but primarily offers an integrated and comprehensive survey of present knowledge, together with some suggestions as to how the field is developing. It aims both to interrogate the notion of 'early modernity' itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that 'early modern' is not simply a chronological label but possesses a substantive integrity. Volume I examines 'Peoples and Place', assessing structural factors such as climate, printing and the revolution in information, social and economic developments, and religion, including chapters on Orthodoxy, Judaism and Islam.

**A Thesaurus of English Word Roots** Horace Gerald Danner, 2014-03-27 Horace G. Danner's A Thesaurus of English Word Roots is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the

meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In *A Thesaurus of English Word Roots*, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacusia, hyperacusia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odynacusis.. In this manner, *A Thesaurus of English Word Roots* places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

*Hard Core Cartels Recent progress and challenges ahead* OECD,2003-05-27 This book reviews progress in the fight against hard core cartels. It quantifies the harm caused by cartels and identifies improved methods of investigation. It also examines progress in strengthening sanctions against businesses and individuals.
